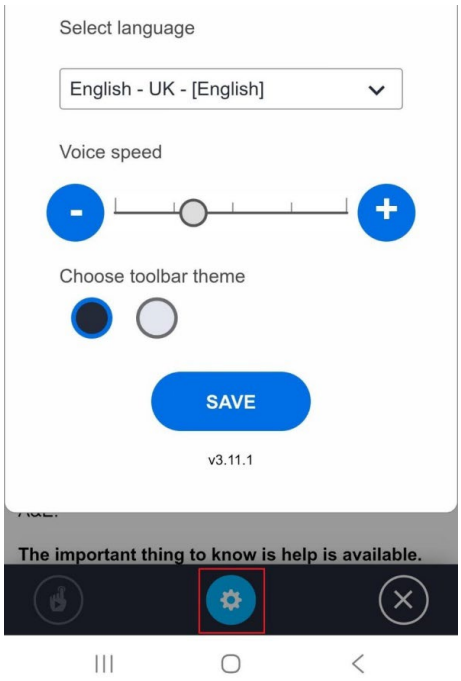
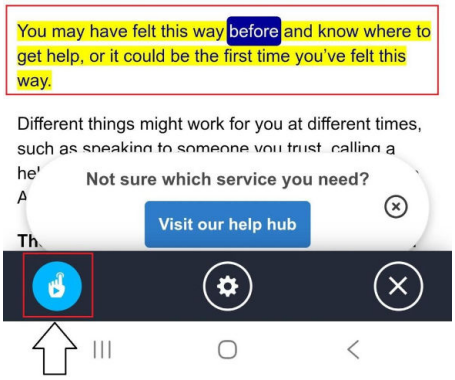
Using Reachdeck on a Mobile Phone

You can choose the features that suit your needs.

The full Connect website, including the Sensory Processing Hub and all downloadable resources can be translated. In the bottom left-hand corner of the screen, there is a red icon with a white person inside it, press this button.

If you are using a mobile phone, a black band with icons will open at the bottom of the screen. If you click on the cog or 'settings' icon, a drop-down menu will appear. Select the desired language from the menu and press the blue 'save' button. The screen will go back to the home page, which will be translated into that language.





If you would like the text to be read aloud, press the button on the left-hand side of the band at the bottom of the screen which has a hand icon. Once you have pressed this icon, press on the text you would like to be read aloud.
